KLCN-H4D1T1519 SHOT BLASTING MACHINE FOR INVESTMENT CASTING SHELL REMOVAL

- SPECIAL FOR CASTING CASTING SHELL, INSULATION, CASTING SAND REMOVAL

KHOLEE BLASTING ENGINEERING CO., LTD

EXPERT IN BLASTING & PAINTING INDUSTRY | DALONG INDUSTRIAL PARK, DAFENG, YANCHENG, JIANGSU, CHINA 224125 | TEL: +86-515-8380 9688 | FAX: +86-515-8375 5498 | EMAIL: KHOLEEBLAST@GMAIL.COM | WEBSITE: WWW.KHOLEEBLASTING.COM | CARL CHEN | WHATSAPP/MOBILE: +86-139 1469 8671

CASTING SHELL REMOVAL SHOT BLASTING MACHINE

There are many methods of removing casting shell, insulation and sand from casting products including impact, water-jetting, shake, shot blasting etc. Shot blasting is a surface treatment process using high velocity metal abrasives to impact the surface of metal products, which can obtain excellent cleaning and surface preparation.

Shot Blasting Machine for casting shell removal includes shot blasting chamber, blast wheel (high velocity type), work-piece lifting system, screw conveyor, bucket elevator, magnetic separator, air wash separator, dust collector, Raymond mill breaker, vibrating Screen Separator & electrical control system.

Shot Blasting Used for Casting Shell Removal in investment casting, precision casting, sand casting, lost wax casting, lost foam casting

- Remove Sand from Casting
- Remove Casting Shell & Insulation from casting
- Prepare Surface for coating, cutting, maching etc

In general, shot blasting concentrates metal abrasive at high speed (80~110m/s) at the surface of casting thereby remove casting shell due to the metal abrasives strong impact.

System features & benefits by shot blasting for casting shell removal from Kholee Blast

- Shorten Work Process Flow: no need manual shell removal or shakeout
- Reduce Loss of Steel Shots
- Reduce Labor Cost for Cast Shell Removal
- Save Electrical Energy
- Reduce repair cost compared with traditional shot blast m/c
- Reduce blast cleaning time & improve productivity

 Save Operation Cost & improve production profits: compared with traditional work process flow, the Shot Blasting Machine from Kholee Blast special for casting shell removal will save operation cost. All cost related to new technology of blasting from Kholee Blast will be around USD100,000.00~ USD120,000.00 based on casting production 15tons/day. (When labor cost and material cost are different, the result will be different).

HT Abrasives, one of three companies in China have two quenching equipment, has the capacity to produce high quality steel shots and grits. KHOLEE BLAST, as a GOLDEN Distributor of HT metal abrasives in China, assists our clients in PEB manufacturing industry to select the right steel shots & grits and analyzing the working max and production process in order to maximize the efficiency. All our steel shots & grits are subject to a rigorous quality control to ensure supply the best available abrasives in its class.

Operative Standards:

In accordance with standards of GB/T18838.3—2008 Steel Shot and Steel Grit,SFSA20-66Cast Steel Abrasive, SAE J827 Cast Steel Shot YB/T5149-1993 Cast Steel Shot,ISO11124-3High Carbon Cast Steel Shot

Steel Shot	Application
S780/SS2.5 S660/SS2.0	Sand removal of large sized castings, scale removal of large sized products from forging, stamping, die forging, drawing and rolling or after heat treatment (e.g. pipes, sections, plates, fittings, wire).
S550/SS1.7 S460/SS1.4	Sand removal of large and medium sized castings, scale removal of forging and heat-treated work pieces, surface blast cleaning of steel plates, sections and steel structures, shot peening of work pieces, cutting of granite.
S390/SS1.2 S330/SS1.0	Sand removal of medium and small sized castings, surface blast cleaning of forgings, heat-treated pieces, steel pipes, sections and steel structures, surface treatment before painting, shot peening of work pieces.
S280/SS0.8 S230/SS0.6	Surface blast cleaning of small sized castings, forgings and heat-treated pieces, aluminium and copper alloy castings, steel plates, steel pipes, sections and steel structures, shot peening of work pieces.
S170/SS0.5 S110/SS0.3	Surface blast cleaning of stainless steel plates, thin steel plates, non -ferrous alloys, dacromet coat.

Application Equipment

• Shot Blasting Machine (Auto Wheel Blasting Machine)

Steel Plate Shot Blasting Machine | Steel Structure Shot Blasting Machine | Steel Pipe Shot Blasting Machine | Hanger Type Shot Blasting Machine | Turntable Shot Blasting Machine | Tumble Belt Shot Blasting Machine | Overhead Conveyor Shot Blasting Machine | Steel Cylinder Shot Blasting Machine | Trolley Type Shot Blasting Machine | Wire Mesh Shot Blasting Machine etc.

- Blasting Room
- Sand Blasting Machine, Blasting Pot
- Shot Peening Machine
